Social Development

= Independence & Success!

At DSS, we know the importance of independence and community integration. Our services are geared toward developing skills and achieving outcomes that will lead to a more capable and progressed individual. We work with each consumer to find out their specific skill needs and formulate outcomes to achieve these goals as part of their Individual Service Plan [ISP].

Another equally important aspect of our service is ensuring the health and safety of each consumer we support. Whether outcome-based or need-based, the consumer's wellbeing is always top priority!

At DSS, we believe it is important to work together to ensure that our consumers are successful in their program. After all, we are more than just another agency...

We are Family!
